CAREER OBJECTIVE

I am a Frontend-focused Full-Stack Developer with a Computer Science background from Model Institute of Science and Technology and hands-on experience in JavaScript, React.js, TypeScript, Node.js, Next.js, and PostgreSQL. Currently enhancing full-stack skills through Level 2 training at Programming Hero and real-world projects, with a passion for building scalable applications, collaborating with teams, and applying strong problem-solving skills.

SKILLS AND TOOLS

- **Frontend :** Tailwind CSS, JavaScript(ES6), React.js, Next.js, TypeScript
- **Backend :** Node.js, Express.js
- **Database :** Mongodb, postgresql, Firebase
- **Tools :** Git , GitHub , Figma , Chrome Dev Tools , Netlify , Surge , Vercel

WORK EXPERIENCE

Zentrix Technology Limited

Frontend developer intern

September 2025 - November 2025

- Gained hands-on experience as a frontend developer by building real-world projects.
- Developed teamwork and collaboration skills while working with a development team.
- Learned how to quickly adapt and acquire new technologies to enhance project development.

PROJECTS

1. StudyNest - Online Learning Platform   **Live link** | **GitHub Client** | **GitHub Server**

A platform where students join courses and teachers create and share their knowledge.

Technologies: React.js, Node.js, Express.js, Mongodb, Firebase,Tailwind CSS

Feature :

- Teachers can add/update/delete classes, and admin approval controls visibility on the platform.
- Students can track their enrolled courses, submit assignments, and give feedback on courses.
- Students can securely pay for classes. After successful payment, the enrolled class is saved and tracked.

2. Zentrix Technology Limited - Software company website   **Live link** | **GitHub**

Modern company website showcasing services and products with interactive engaging design.

Technologies: React.js, Tailwind CSS, Sera Ui, Gsap, Fremer motion

Feature :

- Displays all services provided by the company in a clean and organized layout.
- Showcases products with interactive sections and detailed descriptions for better user understanding.
- Eye catching UI design with smooth animations for engaging and modern user experience.

3. BookNest - Hotel Booking Application   **Live link** | **GitHub Client** | **GitHub Server**

A seamless hotel booking app with real-time availability, ratings & secure auth.

Technologies: Tailwind CSS, React.js, Node.js, Express.js, Mongodb, Firebase

Feature :

- A user-friendly platform to discover, filter, and book rooms based on budget and preferences.
- Users can write and share reviews about their experience after completing their stay at the place.
- Users have the ability to cancel their bookings or modify the scheduled dates as needed.
