PROJECTS

1. StudyNest - Online Learning Platform

[Live link](#) | [GitHub Client](#) | [GitHub Server](#)

A platform where students join courses and teachers create and share their knowledge.

Technologies: React.js, Node.js, Express.js, MongoDB, Firebase,Tailwind CSS

Feature :

- Teachers can add/update/delete classes, and admin approval controls visibility on the platform.
- Students can track their enrolled courses, submit assignments, and give feedback on courses.
- Students can securely pay for classes. After successful payment, the enrolled class is saved and tracked.

2. Zentrix Technology Limited - Software company website

[Live link](#) | [GitHub](#)

Modern company website showcasing services and products with interactive engaging design.

Technologies: React.js, Tailwind CSS, Sera UI, Gsap, Framer Motion

Feature :

- Displays all services provided by the company in a clean and organized layout.
- Showcases products with interactive sections and detailed descriptions for better user understanding.
- Eye catching UI design with smooth animations for engaging and modern user experience.

3. BookNest - Hotel Booking Application

[Live link](#) | [GitHub Client](#) | [GitHub Server](#)

A seamless hotel booking app with real-time availability, ratings & secure auth.

Technologies: Tailwind CSS, React.js, Node.js, Express.js, MongoDB, Firebase

Feature :

- A user-friendly platform to discover, filter, and book rooms based on budget and preferences.
- Users can write and share reviews about their experience after completing their stay at the place.
- Users have the ability to cancel their bookings or modify the scheduled dates as needed.
